### NOT A BELLIGERENT ACT

WITHDRAWAL NOT SO CONSID-ERED AT WASHINGTON.

To Outward Appearance, There Is No Change In the Usual Routine of Cuban City - Preparations Made For Its Defense-Boys of 15 In the Volunteers.

Washington, April 8.-The expects tion of the sinte department officials is that Consul General Let will be out rement late this afternoon from Gen-al Lee, but it was said it related uply to a matter of detail of no great pursance. From the fact that he doe no reference to any disturbance ill-reling, the officials take it for mised that the day in Havana pursed without anything of moment hap-ains.

By Sunday, at the very latest, it is ow believed, all the consular officers of the United States in Cuba, and all developments of the lasue Spain and the Unfted States. INTERESTING PHASES.

The important papers of the offices will be brought to the United States. Officials of the state department, in discussing the withdrawal of the consuls from Cuba at this time, say it presents namy phases of interest. They point out that such withdrawals must not be considered in any manner a belligoren, not, but simply one of precaution, based on humanitarian motives, designed to protect them from any trouble which might result from the strained relations between Snain and this country. In a week, suggested one official today, they may all have returned to their positions, it trouble between the two countries should be averted.

As to the consul at Porto Rico, he will use his own good pleasure in withdrawing from the island, but the probability is that he will either come home or go to some other place where he will feel secure from hossile demonstrations.

"At home they are persuaded that their coasts and forts have nothing to fear, as the reserves can be called out and the coast guarded without difficulty. They put much confidence in the idea of sending privateers to raid upon the American merchant and chasting fleets. These optimistic views are not shared in high political and professional circles, where grave apprehension exists regarding trade and communication with the colonies and the dispatch of relief and provisions, especially for the Spanish forces in Cuba, that used to get most of their supplies from the United States.
